Plumbers know

that no two jobs are the same...

You choose your product solution to fit the application - that's why Polypipe has developed a **Total Plumbing Solution...**

POLYPLUMB

The **FAST** and **PERMANENT** system

- Grey push fit system
- Superb joint integrity
- Tested & tested for over 30 years

POLYFIT

The **FAST** and **DEMOUNTABLE** system

- White push fit system
- Leads the market in speed to fit
- Fully demountable and reusable

POLYSURE

The **SLIM** and **PERMANENT** system

- Radial press fit system in UK sizes
- Permanent, tamper proof fit
- Slim profile fittings ideal for retrofit applications

See the total solution at www.totallyplumbing.com

Underfloor heating that **goes over** **your floor...**

If you are considering underfloor heating but worried about digging up your floors, **take a look at Overlay™** - the underfloor heating system that **goes over your existing floor**.

Overlay™

The unique Polypipe Overlay™ concept enables you to easily retro-fit underfloor heating. Overlay™ is ideal for single room projects like kitchens, bathrooms, conservatories and extensions but it is equally suitable for an entire floor or house.

Overlay™ gives you all the benefits of underfloor heating with no disruption and with room packs starting from under £300 it won't cost the earth either.

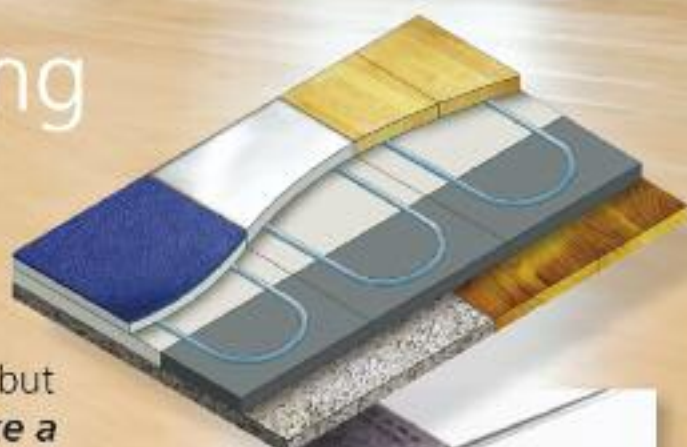

Installation is easy

Selecting and installing Overlay™ couldn't be simpler. Polypipe has a nationwide network of Registered Installers who will take care of everything from quotation to installation. And all parts are covered by a comprehensive guarantee, with 50 years on pipe.*

*For full details visit www.freeyourwalls.com

How does it work?

- Overlay™ slim heating panels are just 18mm deep and fit over your existing floor surface
- Narrow gauge warm water pipes fit into pre-routed grooves
- Connect to any heat source, including your existing central heating boiler
- Overlay™ works with renewable energy sources
- More responsive than built in systems

Overlay™ is available with a choice of two floor panels to suit any floor covering:

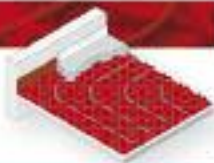

- Choose original Overlay™ for heavier coverings such as floor tiles or solid wood
- Choose Overlay™ Lite for laminates, engineered woods and carpet

KEYWORD	DESCRIPTION	PRICE £	KEYWORD	DESCRIPTION	PRICE £	KEYWORD	DESCRIPTION	PRICE £
---------	-------------	---------	---------	-------------	---------	---------	-------------	---------

SOLID FLOOR

Polypipe under floor heating in solid or screeded floors incorporates the unique Polypipe screeded floor panel. The lightweight plastic floor panels nest for easy storage and carrying.

FLOATING FLOOR

Designed for use where a solid floor installation is not suitable due to structural weight limitations or where a 'dry build' floor option is required. Suitable for use in new build or existing properties, floating floor panels can be installed directly on top of solid and timber floors.

SUSPENDED FLOOR

Designed for use in timber suspended or battened floors, Polypipe suspended floor system uses aluminium double heat spreader plates to transmit the heat evenly across the finished floor surface.

MHP

Modular Heating Panels are an exciting new product concept from Polypipe that enable quick and simple installation of under floor heating into suspended floors in both new build and renovation projects.

OVERLAY™ & OVERLAY™ LITE

Overlay™ is a unique low profile floor heating system ideal for renovation and new build projects.

Overlay™ accommodates all types of project and floor coverings, and the only choice is which panel will be most appropriate for the installation. Both Overlay™ and Overlay™ Lite can be used for any project. Overlay™ Lite is the quickest and easiest system to install.

The more structural nature of Overlay™ however makes it ideal for direct tiling or where floor finishes need to be fixed to the panel.

thermoboard

UFH
it's what
we do

**All the support
you need for
your underfloor
heating project**

quickcalc

Easy-to-use online tool for straightforward projects:

- Project cost at TLP
- Itemised list of materials
- Recommended pipe layout
- Practical installation guidance (single/multi-room)

fullspec

Start-to-finish service for any type of project, however complex

- Dedicated project manager
- Heat loss calculations
- PI-insured design with full CAD drawings
- Made-to-measure components
- Bespoke control options
- Quotation on request

www.thermoboard.co.uk

Thermoboard is the new name for UFH from Wavin

DG4136

Thermoboard QuickCalc instant quote facility

This can be accessed in store at your local PTS branch or online at www.thermoboard.co.uk.

For each qualifying screeded project, you simply enter the basic project details which instantly generate:

- Project cost (at trade list price)
- List of materials required for your project, ensuring little wastage
- Typical room layout suggestions for installation.

Thermoboard FullSpec full design service

For other, non-screeded floor projects, including timber floor construction and retrofit projects as well as other, more specialist types, you can access Thermoboard's FullSpec service. Ask in-store for details or call Thermoboard directly on 01392 444122.

The Thermoboard FullSpec facility will provide a 'full design' solution, including:

- Dedicated Project Manager
- Heat loss calculations (on request)
- Detailed design, with CAD drawings, that is fully PI-insured
- Specialist made-to-measure products
- Bespoke control options

KEYWORD	DESCRIPTION	PRICE £
Copper Tube to BSEN1057		
<i>The full range of Copper Tube offered by PTS is manufactured, inspected and tested in accordance with the appropriate Table Standards defined by BSEN1057</i>		
(Formerly BS2871 Table X)		
R250		
15mm, 22mm, 28mm, 35mm, 42mm, 54mm, 67mm		
R250 Plastic Coated		
15mm, 22mm		
R250 Plastic Coated with Internal Ribbing		
15mm, 22mm in 3 or 6 metre lengths		
R250 Chrome Plated		
15mm, 22mm in 2, 3 or 6 metre lengths		
(Formerly BS2871 Table W)		
R220		
8mm, 10mm in 10, 20, 25 & 50 metre coils		
R220 Plastic Coated		
8mm, 10mm		
R220 Plastic Coated with Internal Ribbing		
8mm, 10mm in 25 & 50 metre coils		
(Formerly BS2871 Table Y)		
R250		
15mm, 22mm		
R220 Plastic Coated		
15mm, 22mm in 20 metre coils		
R220 Plastic Coated with Internal Ribbing		
15mm, 22mm in 6 metre lengths and 20 metre coils		
NB		
<i>The colour of the plastic usually denotes the service application: Blue or Green = Water White = Heating Yellow = Gas</i>

Neostone - incorporates 70% quartz particles creating unique granite effect finish which is incredibly durable, highly scratch resistant and can withstand temperatures of up to 230°C

Velstra - a similar advanced material is equally practical offering both durability and superior hygienic properties in a range of solid colours

Please note - Granite colours have a grain effect and Neostone have a glittery finish

A full range of colour options available, please ask in branch for details.
